Jersey City, New Jersey 07307 | vj84491n@pace.edu | +1 (551) 371-2606 | [linkedin.com/in/vivek-jariwala01](https://www.linkedin.com/in/vivek-jariwala01) | <https://vivekjariwala50.github.io/Portfolio>

PROFILE

Results-driven Software Engineer with expertise in full-stack development, database management, and scalable software solutions. Proficient in designing, developing, and optimizing applications with a strong foundation in algorithms, data structures, and cloud technologies. Passionate about building efficient, high-performance systems and solving complex engineering challenges in a collaborative environment.

TECHNICAL SKILLS

- **Frontend:** HTML, CSS, JavaScript, TypeScript, React.js, Next.js, Tailwind CSS, Bootstrap, SCSS, Webflow, Vite.js
- **Backend & APIs:** Python, Django (Basic), SQL, API Integration, Express.js, Node.js
- **Cloud & Deployment:** AWS
- **Data & Automation:** MS Excel, Pandas, Web Scraping (BeautifulSoup)
- **Version Control & Collaboration:** Git, ClickUp, JIRA
- **Testing & Debugging:** Bug Fixing, Unit Testing, Performance Optimization
- **Methodologies:** Object-oriented programming, Agile, Software Development Lifecycle (SDLC), DSA, Test-Driven Development (TDD)
- **Data Visualization:** Tableau, Chart.js, Google Chart

EXPERIENCE

White Orange Software

Surat, Gujarat

Frontend Software Engineer

May 2023 – Jul 2024

- **Developed** responsive and interactive web applications using modern front-end frameworks, enhancing user engagement and accessibility.
- **Integrated** RESTful APIs and optimized performance, reducing page load times by 20% and increasing speed by 25%.
- **Designed** reusable code components and ensured cross-browser compatibility, streamlining development processes and improving team efficiency.
- **Collaborated** with design teams to implement UI/UX features, boosting client satisfaction by 15%.

White Orange Software

Surat, Gujarat

Frontend Software Engineering Intern

Nov 2022 – Apr 2023

- **Mastered advanced frontend technologies** to create innovative web applications for live projects, resulting in a 20% reduction in load times and enhancing overall user satisfaction.
- **Employed agile methodologies** to improve team communication and project delivery speed by 30%.
- **Engineered custom tools and workflows** that boosted productivity by 25% while minimizing code errors.

SAI Infotech

Surat, Gujarat

Software Engineering Intern

Jun 2022 – Jul 2022

- **Automated** CI/CD pipelines using GitHub Actions, reducing deployment time by 40%.
- **Co-ordinated to responsive site testing** by implementing testing protocols that ensured cross-device compatibility, ultimately boosting site performance and improving user experience metrics by 10%.
- **Compiled** a comprehensive list of over 30 web resources delivering actionable insights that enhanced the development team's decision-making process, contributed to a 25% increase in project success rates over two quarters.

EDUCATION

Pace University, Seidenberg School of Computer Science and Information Systems

New York City, New York

MS in Computer Science

May 2026 (Expected)

Relevant Coursework: Database Management Systems, Software Engineering Principles, Web Development, Data Structures and Algorithms, Python for Data Science

Prime Institute of Engineering & Technology

Navsari, Gujarat

BE in Computer Engineering | **GPA: 3.65 / 4.0**

Jun 2023

LEADERSHIP

Pace University, Project Team Leader (Database Management System Team Project)

Sept 2024 – Dec 2024

- **Led a team of five** to develop a Database Management System, improving project accuracy by 30% and reducing completion time by 25% through effective documentation and collaboration.
- **Designed** data dictionaries, ER diagrams, and relational schema models, ensuring clarity and precision in data representation.
- **Used MS Visio** for database design visualization and implemented a structured process for efficient project delivery.
- **Crafted complex SQL queries** to enhance data accessibility and usability, earning a 95% satisfaction rating from Professor.

White Orange Software, Team Leader, Projects

May 2023 – Jul 2024

- **Orchestrated project workflows** by establishing clear guidelines and folder structures, which streamlined team collaboration and improved overall project organization, leading to a 40% increase in productivity.
- **Resolved team conflicts and technical issues**, boosting team morale and cohesion by 25%.
- **Presented project outcomes** to clients, securing a 90% approval rating.

PROJECTS

Annakoot (Admin Dashboard), <https://annakoot.vercel.app>

Technologies: React.js, Ant Design, CSS3, Chart.js, SweetAlert

- **Engineered** a responsive admin dashboard with advanced authentication, routing, and theming capabilities, integrating Chart.js for data visualization and SweetAlert for enhanced user interaction, while ensuring clean, modular, and scalable code for seamless customization.

Financial Automation Tool (Company Linker), <https://company-linker.netlify.app>

Technologies: HTML, CSS, JavaScript, ExcelJS, Google Sheets API

- **Developed** an automation tool for a finance company to streamline due sheet management by enabling seamless data import from Excel files and Google Sheets, enhancing financial control and operational efficiency.
- **Automated** financial data processing, reducing manual efforts by 50%.

Bank of America: Treasury Management (Ongoing Project)

Technologies: Node.js, Vite.js, Duo Mobile 2FA

- **Building** a secure and efficient treasury management system using the **Bank of America CashPro API** for real-time cashflow monitoring. Integrating Duo Mobile 2FA for enhanced security and leveraging Node.js and Vite.js to ensure faster performance and seamless user experience.
